DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION

Advion® Cockroach Bait Arena contains cockroach bait material that contains the active ingredient indoxacarb, an insecticide that acts through ingestion by cockroaches. The activity of this insecticide allows adequate consumption of the bait by cockroaches prior to onset of mortality.

Advion Cockroach Bait Arena can be used indoors to control cockroach populations. Arenas should be placed in/or near cockroach harborage areas or areas known to be frequented by cockroaches.

Outdoors, bait arenas should be placed adjacent to structures.

SPECIFIC USE DIRECTIONS

1. Thoroughly inspect infested area to determine proper Advion Cockroach Bait Arena placement and number of arenas necessary to treat the area.
2. Enough arenas must be used to provide adequate bait to control the cockroach populations present. Recommended placements: Place 3-10 bait arenas per 100 linear feet of horizontal surface primarily around wall perimeters and other areas away from walls such as but not limited to, around centrally located island sinks, cabinets, and appliances. Place maximum number of arenas with heavy cockroach infestations.
3. Place Advion Cockroach Bait Arena in areas where cockroaches frequent such as along walls or corners, under or near kitchen appliances and industrial equipment, under sinks, in cabinets, and utility areas.
4. Each Advion Cockroach Bait Arena may be placed on a vertical or horizontal surface using an adhesive.
5. Inspect arenas periodically and replace depleted bait arenas as needed based on severity of the initial cockroach infestation and a continuing control program. For arenas placed outdoors, replace every 3 months, or sooner if arena becomes depleted of bait.
6. Avoid direct contact of Advion Cockroach Bait Arena with broadcast, spot or crack and crevice directed pest control applications. Do not place bait arenas in locations recently treated with other pest control products as spray residues could render the bait less palatable to cockroaches and reduce effectiveness of the bait arenas.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Storage

Store in cool, dry place inaccessible to children and pets.

Disposal

If empty, do not reuse/refill this bait arena. Place empty bait arena in trash or offer for recycling if available. If partially filled, call your local solid waste authority or 1-888-638-7668 for disposal instructions.
